

Architects: B D P
Principle Contractor: Kier Group

A major refurbishment of the top three floors of this building has recently been undertaken as part of a £20 million master plan.

Project architects Building Design Partnership specified Pyrovista® 60 timber fire resisting screens incorporating Firestile® fully glazed fire resisting doors.

The timber used was Sapele which was subsequently painted on site

The Pyrovista® and Firestile® screens and doors are located on levels 6,7 and 8 and they were all glazed with 6mm Pyran glass to provide fire integrity as defined in BS 476.

Technical Services

Our services to architects and Specifiers include CPD technical seminars, specification writing and site visits
