

Architects: Self Architects
 Principle Contractor: Instyle Construction

Sheffield Hallam has been undergoing an ongoing refurbishment programme. Self Architects specified Pyrovista® as a solution to provide 60 minutes integrity and insulation fire resistance.

In addition the scheme required that screens should provide a degree of privacy to the lecture rooms which resulted in the bottom panels being glazed with a 23mm thick Pyrostop with an etch finish applied to one face. The middle section was secondary glazed thus allowing for integral blinds to be installed.

A number of screens were installed throughout the project with the largest ones measuring 4.3 metres long and 2.5 metres high.

Technical Services

Our services to architects and Specifiers include CPD technical seminars, specification writing and site visits
