# MANN McGOWAN JOIN FORCES WITH THE TECHNICAL FIRE SAFETY GROUP IN STRATEGIC ACQUISITION

Mann McGowan, the leading intumescent seal technology specialists, is delighted to announce its successful merger into the Technical Fire Safety Group (TFSG), propelling both organisations into a new era of collaboration and growth.

Situated in Aldershot, Hampshire, Mann McGowan holds a rich legacy and has been a trailblazer in intumescent seal technology for over four decades. This legacy, coupled with a shared commitment to excellence with the TFSG Group has set the stage for the next exciting chapter in their collective journey.

Aligning seamlessly with TFSG's ongoing expansion program, the move integrates Mann McGowan perfectly with the Group's existing subsidiaries, Pyroguard and Fire Glass UK, combining collective strengths in passive fire protection and providing a unique opportunity to bring a fully comprehensive and complementary intumescent seals product range into their existing portfolio.

Additionally, the move also positions Mann McGowan as a formidable player aligned with the esteemed brands within the broader svt Group of Companies including; Rolf Khun GmbH, Odice SAS, Flamro, and Securo, providing further opportunities for collaborative development.

Jamie Scott, Managing Director of Mann McGowan, commented, "It's a really exciting time for Mann McGowan. This acquisition opens up new horizons for our business, and we look forward to the many opportunities and continued success that this integration will undoubtedly bring.

"Being part of the Technical Fire Safety Group is the perfect fit for us, and I'm confident that this move will provide many opportunities for collaboration with the wider Group on both local and international levels."

Neil Tilsley, CEO of Technical Fire Safety Group, expressed his enthusiasm, stating, "We are delighted to welcome Mann McGowan to the TFSG family. This strategic move paves the way for a very exciting future and allows us to better serve our collective customer base by expanding our ability to offer wider packages of products from one single source, including seals and glazing solutions."

Mann McGowan will continue to operate under its current brand name and leadership team ensuring a seamless transition and allowing the business to maintain the exceptional customer service levels and the supply of products that define Mann McGowan.

Mann McGowan design, manufacture and supply a comprehensive range of fire, smoke and acoustic seals to meet industry requirements and customers' needs and specifications. To ensure the safe compliance on all fire doors and to develop their product range, they work closely with door, glass and hardware manufacturers. Every product is subjected to rigorous quality control and most importantly independent third-party evaluation and testing to various national and international standards.
